INFORMATION

Drawer Lighting

Light kits are specifically designed to illuminate the inside of a drawer box once it's opened., and automatically turn off once it's closed. Each kit is self-contained, requiring no external power source or electrical outlet. The built in 3.7V lithium-ion battery provides roughly 1 year of normal use, and can be recharged using the included USB cable. The light strips mount to the top edge of the drawer box with 3M adhesive and produce a soft, warm white hue. Aside from an annual recharge, the system is virtually maintenance free. The lighting kit is easy to use and easy to order; see details below.

Key Features:

- Designed for Base and Vanity depth cabinets - no modifications allowed
- Works on both hardwood and solid Beech dovetail drawer boxes - Not available on
 - File Drawers
 - Heavy-Duty Drawer Boxes
 - U-Shaped Drawer Boxes
 - Pencil Drawers
- 3000K warm white light temperature
- 3.7V Lithium-Ion battery pack with approximately 1 year of battery life
- Not available for Roll Out shelves
- Battery and included accessories taped to the inside of the drawer box for shipping purposes

HOW TO ORDER: 2 options listed below

- **AS A CABINET MODIFICATION:** By selecting desired cabinet and then adding the modification DWR LIGHT_ (See nomenclatures below)
- **LOOSE ITEM:** Order loose for on-site installation by entering it as an accessory and then selecting the nomenclature DWR LIGHT_ (See nomenclatures below)
