

INFORMATION

Drawer Lighting

Light kits are specifically designed to illuminate the inside of a drawer box once it's opened., and automatically turn off once it's closed. Each kit is self-contained, requiring no external power source or electrical outlet. The built in 3.7V lithium-ion battery provides roughly 1 year of normal use, and can be recharged using the included USB cable. The light strips mount to the top edge of the drawer box with 3M adhesive and produce a soft, warm white hue. Aside from an annual recharge, the system is virtually maintenance free. The lighting kit is easy to use and easy to order; see details below.

Key Features:

- Designed for Base and Vanity depth cabinets - no modifications allowed
- Works on both hardwood and solid Beech dovetail drawer boxes - Not available on 10-1/4" file drawer units.
- 3000K warm white light temperature
- 3.7V Lithium-Ion battery pack with approximately 1 year of battery life
- Not available for Roll Out shelves
- Battery and included accessories taped to the inside of the drawer box for shipping purposes

HOW TO ORDER: 2 options listed below

- **AS A CABINET MODIFICATION:** By selecting desired cabinet and then adding the modification DWR LIGHT_ (See nomenclatures below)
- **LOOSE ITEM:** Order loose for on-site installation by entering it as an accessory and then selecting the nomenclature DWR LIGHT_ (See nomenclatures below)

Drawer Guides

Tandem Blumotion Full Extension Zinc-coated steel full extension undermount guide. Smooth and silent, Blumotion engages when the drawer is two inches from closing and applies resistance to the self-closing mechanism on the runner. *Upcharge*

Nomenclature: TANDEM BLUMOTION (Global Selection) \$0
Loose: DGTUFEBM (9, 12, 15, 18, 21, 24) Specify size..... \$97

The trigger used in our Tandem Blumotion Full Extension guide offers the ability to adjust "side-to-side" adjustments in addition to the "up and down" option in our previous trigger.

Trigger Features

- Vertical mount locking device to minimize splitting
- Right device is captive while the left is self-aligning
- Self-adjusting drawer length tolerance
- Steel base with synthetic, spring-loaded release levers
- Minimum inside drawer width* is 6 11/16"
- Height adjustment 1/8"
- Side to side adjustment 1/16"
- Designed for 1/2" drawer bottom recess

* When inside of drawer is less than 6 11/16" we will use our previous trigger which it does not adjust side to side.

Upcharge

Nomenclature: DRWTRGR3W (Included with guide) \$0
Loose: DRWTRGR3W (Left, or Right) Each..... \$7
DRWTRGR3W P Pair..... \$14

Adjustments available:

- Side to side
- Up and down (height)
- Read side to side adjustments
- Tilt adjustments.

Clips are equipped with adjustment knobs or levers that enable precise calibration for achieving the desired alignment or positioning.

Additional Tandem Blumotion Full Extension Features:

- Full extension concealed runners with Blumotion soft-close
- Zinc-coated steel
- Concealed roller carriage with permanently lubricated synthetic rollers
- Elongated holes for depth adjustments
- Tool-free tilt adjustment
- Tool-free "rear" side to side adjustment
- 100 lbs static, 90 lb dynamic load capacity

IMPORTANT NOTE

The minimum recommended opening width for all guides is 6" and the minimum cabinet depth is 11 1/2". If cabinet depth is below 11 1/2" an apothecary type drawer will be used on wooden runners. Cabinets can be increased up to 32" deep but drawer box will not be more than 21" deep due to guide availability unless you upgrade to deeper guides.
